## **Post Acute Medical Collaborates with SHL Telemedicine using SmartHeart™ 12 lead ECG Technology**

*Post Acute Medical to use the SmartHeart™ leading 12 lead ECG technology in providing services to post-acute facilities nationwide*

**Tel Aviv / Tacoma/WA, 14 February 2022** – Post Acute Medical, PLLC and SHL Telemedicine Ltd., today announced a collaboration for use of the SHL SmartHeart™ 12 lead ECG technology in post-acute health care services provided to patients and facilities served by Post Acute Medical.

“We are very pleased to collaborate with Post Acute Medical, a leading organization in the delivery of comprehensive medical services to large post-acute operators with nationwide operations.” said Erez Nachtomy, CEO of SHL Telemedicine. “We believe that the use of our SmartHeart™ technology will significantly grow the use of the gold standard 12 lead ECG procedure, to enable remote clinical decision making with important clinical implications and improve patient care.”

Through this collaboration, Post Acute Medical will deploy the use of SmartHeart™, the first device of its kind to allow the transmission of a full hospital-grade 12 lead ECG using a smartphone or tablet into, both, Skilled Nursing and Health Care facilities. SmartHeart™ enables clinicians and patients to perform the ECG wherever they are, without any need for prior training in performing of ECG, transmitting results to the provider within 30 seconds.

“We are excited about our relationship with SHL Telemedicine and the addition of delivering the SmartHeart™ 12 lead ECG solution to our customers and the patients we serve. Adding the market leading portable 12 lead ECG technology to our existing arsenal of point of care technologies and advanced services demonstrates our commitment to advance post-acute care to new heights”, said Mike Kubik, CEO. Raymond Thompson, COO, added “delivering the SmartHeart™ through our Post Acute Medical team, allows us to achieve even greater quality outcomes by providing timely access to healthcare services for the patients and facilities we serve.”
