## **Imperial College London TELE-ACS clinical trial results, using SHL Telemedicine's SmartHeart® technology, to be presented at ACC 24**

*The selection of the TELE-ACS trial results for presentation at ACC 24 highlights the pioneering achievements of Imperial College London and SHL in advancing the field of telemedicine* **TEL AVIV, Israel & ZURICH & NEW YORK, February 1, 2024** – SHL Telemedicine Ltd. (NASDAQ: SHLT, SIX: SHLTN;) ("SHL" or the "Company"), a leading provider and developer of advanced personal telemedicine solutions, is excited to announce that the full results of the Imperial College London TELE-ACS clinical trial have been selected for presentation at the prestigious American College of Cardiology's 24th Annual Scientific Session & Expo Late-Breaking Clinical Trials Sessions (ACC 24 LBCT) in Atlanta..

The full results of the TELE-ACS trial, led by Dr. Ramzi Khamis and Nasser S Alshahrani, will be presented on April 6, 2024, in session 403-16, titled: "Remote Acute Assessment Of Patients With High Cardiovascular Risk Post-Acute Coronary Syndrome". The TELE-ACS trial is a pivotal study that marks a significant milestone in telemedicine and cardiovascular care. Accepted for presentation at the prestigious ACC 24 conference, this clinical trial explores the effectiveness of remote assessment in patients with high cardiovascular risk following an acute coronary syndrome, focusing on the application of SHL's SmartHeart® 12-lead ECG technology for monitoring of post-MI (heart attack) patients at home.

Erez Nachtom, CEO of SHL Telemedicine, commented: "We would like to congratulate the team at Imperial College London on the acceptance of the TELE-ACS trial results for presentation at ACC 24. This achievement is a testament to the researchers and their rigorous effort to conduct this groundbreaking work. We very much look forward to seeing the presentation at ACC 24 which will share the embargoed full trial results with the global cardiology community."
